

## NEWS OF OUR NEIGHBORS

## A MONTANA MAN BLOWS HIS HEAD OFF.

Nothing known as to the motive—A Pendleton, Oregon man, killed by a train.

A Missoula, Mont., dispatch, dated Dec. 26, states: The remains of Henry Neff, one of the oldest employees of this division of the Northern Pacific, lies in the undertaking rooms of J. M. Lucy with the upper right side of his head blown off. Death was self-inflicted and was brought about by the discharge of a Winchester rifle, and must have been instantaneous as the skull was shattered and the entire right side of the brain exposed. The discovery of the ghastly body was made this morning about 8 o'clock by H. Clement, a railroad employee, who at once notified the officers.

In the absence of Dr. Mills, Judge Evans acted as coroner and impelled a jury. The remains were viewed as the body lay in bed and the inquest was adjourned until 2 o'clock this afternoon at the police court room.

Neff shot himself in his room at the residence of Mrs. Vanstone, near the road house. The body, when discovered, was lying on the bed and there were no evidences of any death struggle. He had removed his coat and vest, shoes and stockings and loosened his trousers. The position of the rifle would indicate that he had discharged it with his foot while holding it against his head with his hand. The bullet struck the forehead and then deflected passing through the forehead of the head. Nothing is known as to the motive of the deed and the circumstances surrounding it shed but little light upon it. The first witness at the inquest was H. Neff's son, who testified that he had known Neff eight years. He saw him yesterday, but did not see him drink anything.

## A TRAGIC DEATH.

J. P. Bushee, of Pendleton, falls from a train and is killed.

The sad news of the death of one of Pendleton's most prominent citizens was conveyed to this city on Christmas morning in a brief dispatch to Mrs. J. P. Faint stating that J. P. Bushee had fallen from a moving train and killed. The news spread rapidly over the city, the deceased being widely known in this section, but no particulars were obtainable until yesterday on the arrival of several persons from the west.

Mr. Bushee was on his return home to Pendleton from a tour of the southern portion of the state where he was called in the discharge of his duties as grand lecturer of the A. O. U. M. and Royal Arch Chapter of Oregon. At Portland he was joined by Hon. Henry Blackman and together they occupied seats in the chair car until Arlington, when they parted company. Later on Mr. Bushee went into the smoking car and remained until the train whistled for Pendleton. At the time the cause of the accident and how it happened is a matter of conjecture. It is thought when the train whistled Mr. Bushee left his seat and was in the act of passing between the smoking and chair car when he missed his footing and was thrown from the train. He was missed on the arrival of the train at the depot and when a special was sent out his lifeless body was found about one-half mile distant, his head badly smashed and his brain scattered about the rails. The remains were taken to his home in Pendleton and given in charge of his grief-stricken wife, son and daughter, who are almost distracted over the loss of their dear husband and parent.

Mr. Bushee was prominently known throughout the state and his death will be deeply lamented.

On the evening train of Monday Mrs. J. P. Faint and son Carlton, and Mr. J. P. Holcomb went to Pendleton. Mr. Holcomb returned yesterday. The time of the funeral of Mr. Bushee has not been announced as word from a funeral home in Nevada is being awaited.—Baker Democrat.

## En Route to Carson.

Sheriff Harkin arrived on the afternoon train yesterday from Humboldt with three prisoners, which he is taking to Carson. One is Indian Charley, sentenced to life for murdering two members of his tribe, and the others are Carter and Griffin, sentenced to two and one-half years each for burglary. The prisoners were the guests of Sheriff Caughlin last night and they will be taken to Carson this morning.—Reno Journal.

## Attempted Suicide.

Marcella Kelley, a young man of Carson, tried to commit suicide in that city early Monday morning by shooting himself in the breast. The ball glanced from the rib and inflicted a painful flesh wound. The cause of the attempt at self-destruction was a disgraceful attachment for a woman of the town living in a well-known house in that city. She had taken up with another lover, and so Kelley concluded to end his earthly trials by the bullet. He was wise enough, however, not to place the gun to his head in any futile attempt to blow out his brains.—Reno Journal.

## THE CYANIDE PLANT.

## Looked Forward to as the Solver of Treating Low Grade Ores.

The Cyanide plant of the Gold Recovery company is just ready for work in the Black Hills district. "The completion and operation of this plant has been looked forward to by every one in the hills, especially mining men, as the solver of the problem of treating our low grade ores, not to be treated by chlorination, smelting or other high priced processes at a profit. In the cyanide process the ore is crushed, the gold is dissolved in a solution of cyanide, and the low grade ore which would not average \$12 per ton, and have it treated at a cost which would leave them a margin with which to live and operate their mines. The successful operation of this plant will increase the mining industry four fold in the hills within three months after it has demonstrated its practicability to handle our low grade ores to profit, and would cause mine after mine containing large bodies of ore, ranging in value from \$10 to \$15, to be opened up and worked continuously, causing the employment of many men and giving the mining industry a healthy impetus and creating a market for properties having a vein of mineral. Upon the success of the cyanide depends a measure of the prosperity of the hills."—Baker City Democrat.

## NEWS OF THE COURTS.

## AN AGREEMENT REACHED WITH EX-COUNTY COLLECTOR HARDY.

Resolutions Adopted by the County Court Yesterday—Orders Made in the Third District—Judgments.

The county court met yesterday afternoon for the purpose of considering the claim of ex-County Collector Hardy with the view of making a final settlement with the ex-collector. All members of the court and County Attorney Murphy were present.

Mr. Hardy personally appeared before the court and the papers in the case were thoroughly reviewed and the schedules of collections, uncollectable accounts, costs and charges were checked up and found correct. There was some question as to the legality of the claim of Mr. Hardy for payment for both original and duplicate tax sale certificates, but the allowance was made. The following resolution was then adopted and its terms were accepted by Mr. Hardy:

Whereas, L. G. Hardy, ex-county collector, has filed with the county court a list of taxes appearing upon the assessment rolls of the year 1892 of Salt Lake county, which the court now finds to be for various reasons uncollectable; and

Whereas, said ex-collector has also filed with the court a list of parcels of realty sold for delinquent taxes of the year 1892, and for lack of bidders struck off to the probate judge, \$2,656.51;

Resolved, That said ex-collector is hereby given credit in his official account with Salt Lake county for the following amounts, to-wit:

- (1) The amount of said uncollectable taxes, \$480.10.
- (2) The amount of said taxes assessed against said properties struck off to the probate judge, \$2,656.51.
- (3) The costs to date of said sales to the probate judge, being for advertising each parcel of realty in the delinquent tax lists, to-wit: 824 parcels, at 50c each—\$412.
- (4) For fees for filing in the county recorder's office duplicates of each certificate of said sales made to the probate judge, to-wit: 824, at 50c each—\$412.
- (5) For making each original certificate of each of said sales to the probate judge at the rate of 25c per folio, 100 words, \$50.02.

And be it further resolved, That the said collector is entitled also in the settlement of his accounts with the territory and school districts of Salt Lake county to credit for the uncollectable school and special school taxes included in said schedule of uncollectable taxes; and be it further

Resolved, That the county clerk is hereby authorized to report to the territorial auditor the amount of territorial school taxes received by said collector in his exhibit to-wit: \$1,110.16.

Mr. Hardy still retains in the neighborhood of \$30,000 representing territorial school and county school taxes which are now in dispute. The cases are now in the courts. The ex-collector will pay into the general fund, when all disputes are settled and the final account made, about \$500.

## TERRITORIAL NEWS.

## INDIAN RESERVATIONS SHOULD BE THROWN OPEN.

Efforts of Delegate Rawlins Praised—Renewed Feature of William Grant Without Foundation—General Items.

Delegate Rawlins is doing all he can in Washington to have the Uintah and Uncompaghe Indian reservations thrown open for settlement. There could not be a wiser move than this and if it were done thousands of poor men would build themselves happy and pleasant homes on what is at present a desolate country. The land that is now held for a few well fed, lazy Indians to roam over at will and from which the white men are excluded will soon be transformed into a garden spot of Utah, if settlers are but allowed to settle upon it. Besides having all the elements to make it a rich agricultural country it contains the richest of minerals, justice, economy, morality and the advancement of civilization demand that these valuable lands be thrown open to settlers. There is a great deal to be gained by the opening of these reservations and we believe that they will soon be thrown open.

We do not desire to rob the red-man of his just due, but we believe that the time has come when the Indian must accept of the civilization of their conquerors. Give to each Indian a farm, build them a house, give them a school, a church, a factory, a railroad, etc., and these things will in a generation civilize the savages and make them good citizens of these United States. They never can be civilized by sending a few white men among them to teach them how to farm and read and tend stock and such other things as the whites have attempted to teach them. They must be taught with the superior civilization to become imbued with it. Even a civilized man cannot be made to understand that he is doing wrong by simply telling him so. If you wish to change the habits of man you must not only have something superior to that which he has but you must teach him by example. Let it be better and he must, in some way, be convinced that your plan will improve his condition of life.—Wasatch Voice.

## An Unfounded Report.

The report that William Grant, the American Fork merchant, was in financial difficulties, proves to be entirely unfounded. Just how the rumor originated is not known, but Mr. Grant's legion of friends will be pleased to hear that there is nothing in it.

## Territorial Items.

The prize fight which was to have taken place in Ogden last night did not mature, owing to the impossibility of finding any place in town to fight in. Arrangements are being made for a couple of scraps to take place here in the near future, and the mill postponed tonight will come off some night in next week.—Ogden Standard.

The potato and sugar beet crop of Utah are money getters. Grain and wool interests are not all of it. The new state will not enter and take a seat at Uncle Sam's table as a poor cousin or a pauper dependent.—Provo Dispatch.

## NOTICE TO SUBSCRIBERS.

THE HERALD Publishing company will deliver FREE to every paid up subscriber to the daily or semi-weekly HERALD, post-paid, or to every such applicant at the counting rooms, their choice of one of the famous Mathew-Northrup vest pocket series "Up to Date" maps of the United States, or combined Idaho, Wyoming, Oregon, Washington and Montana.

These maps have become celebrated for their wonderful accuracy and combined fund of general information. The state maps show all counties in seven colors; all railroads are not made in straight lines as usually shown in advertisements, but curves as they really are; all cities, towns and villages, all mountain peaks and rivers, and hundreds of small towns, not shown in postal guides or in ordinary maps.

The historical and descriptive matter is both highly interesting and pleasing, dwelling on the educational, farming, mining and manufacturing merits of each respective state, in fact, covering completely in detail all desirable information pertaining to the states named. These maps, generally conceded to be the most valuable "up to date" publications possible to obtain, will be presented gratis to every fully paid up subscriber, new or old, but not to delinquents. In ordering state plainly what you want.
